A

AAAP
  C. A. Bottorff Award, 1988 600
  disease reports, 1987 852
  P. P. Levine Award 601
  Mycoplasma history 607
  Reed Rumsey Student Awards, 1988 604
  Special Service Award, 1988 599
  thirty-year history 175
  Upjohn Achievement Award, 1988 603
acid phosphatase in *Fusarium*-induced tibial dyschondroplastic cartilage 240
adenovirus *see* avian adenovirus
adhesin-receptor reaction, *Escherichia coli* 74
adjuvants for inactivated infectious coryza vaccine 831
Aerococcus in psittacine feces 46
American Association of Avian Pathologists *see* AAAP
airsacculitis, *Escherichia coli,* activated respiratory phagocytes *vs.* 681
antibody *see* maternal, monoclonal
anticoccidials *vs.* competitive exclusion and salmonella 324
antimicrobial agents
  bioelectrophoresis for identifying 370
  vs. competitive exclusion and salmonella 324
  vs. Haemophilus paragallinarum 742
antisera, biotin-conjugated, for *Mycoplasma gallisepticum*-specific immunoglobulin A 416
ascites
  in broilers
    lesions 246
    at low altitude, affected by pelleted feed 376
    and two-week body weight 556
  in guinea fowl 151
ascorbic acid
  vs. antibody response of stressed chickens 483
  vs. Escherichia coli 407, 432
  vs. mortality due to overheating 561
Aspergillus in psittacine feces 46
auramine O staining technique to identify cryptosporidia in feces 108
authors' guidelines 173, 379, 597, 860
avian adenoviruses
  group I, chicken embryo propagation of 347
  group II
    factors influencing severity 793
    in ring-necked pheasants 548
avian cholera *see* fowl cholera
avian encephalomyelitis virus, ELISA for 209
avian influenza virus
  coexistence of pathogenically distinct strains 695
  from wild mallards, pathogenicity for turkeys 319
  vaccine *see* vaccine
avian leukosis virus
  maternal antibody *vs.* 89
  recombinant, immune response of chicken to 96
  recombinant *vs.* Rous sarcoma virus 410
awards *see* AAAP

B

Bacillus in psittacine feces 46
bacteria *see also* individual species
  in psittacines feces or cloacal swabs 46, 79
  in raptor feces 53
bacterin *vs. Bordetella avium* 641
big liver and spleen disease 773
bioelectrophoresis for antimicrobial agent identification 370
Bordetella avium
  adhesion, passive immunization *vs.* 494
  ELISA for 353
  outer membrane proteins compared 787
  pili and bacterins *vs.* 641
Bottorff, C. A., Award 600
budgerigar, leiomyosarcoma in 163, 166

C

Campylobacter jejuni, colonization characteristics 330
Candida albicans in psittacine feces 46
capsule of *Pasteurella multocida* expressed 313
cardiomyopathy in broilers, lesions 246
cartilage, tibial dyschondroplastic, acid phosphatase in 240
cassowary, oak poisoning in 849
cataracts in turkeys 469
CDC Enteric group 41 in raptor feces 53
ceca, *Salmonella typhimurium* attachment to 215

cell line
Japanese quail origin, for propagating avian viruses 282
Marek's disease, turkey lymphoid, clones 486
cerebellar malacia in turkeys 574
Chlamydia psittaci
cytopathology for L-929 cells 421
transmission of 650
chlamydiosis in pet birds, diagnostic techniques compared 157
cholangiocarcinoma in Amazon parrot 594
cholera, fowl *see* fowl cholera, *Pasteurella multocida*
chondroclasts from dyschondroplastic cartilage, acid phosphatase activity in 240
cloacal-swab culture for chlamydiosis, *vs.* peroxidase-antiperoxidase 157
cloacal temperature in *Pasteurella multocida*-inoculated turkeys 204
coccidiosis
ELISA *vs.* 688
vs. reproductive maturation in male Japanese quail 41
cockatiel
goiter in 169
pineoblastoma in 591
competitive exclusion, effect of feed additives on 324
copper metabolism in *Escherichia coli* infection 779
Corynebacterium in psittacine feces 46
Cryptococcus laurentii in psittacine feces 46
cryptosporidia *see also* cryptosporidiosis
in avian necropsies 108
in broilers in Greece 842
in chickens in Georgia 365
in turkeys with diarrhea 63
cryptosporidiosis
experimental, and IBDV 803
intestinal
and bursal 445
small 844
in turkeys with diarrhea 63
respiratory, cytology of 826
Cryptosporidium baileyi, reovirus interaction 381
cyclophosphamide *vs.* hematology in turkey 812

D

dermatitis, gangrenous, *Staphylococcus*-induced 140
disease prevalence in Georgia turkeys 404
disease reports 852
dot-immunobinding assay for infectious bronchitis virus 137
duck, white pekin, fecal streptococcal infection in 570
duck plague, post-epizootic survey of waterfowl 722
dyschondroplasia *see* tibial dyschondroplasia

E

edema, acute pulmonary, in guinea fowl 151
egg and eggshell quality in post-production-peak leghorns, *Mycoplasma gallisepticum* F strain vaccine *vs.* 304
egg drop and splenomegaly, signs of big liver and spleen disease 773
egret, common, *Eustrongylides* epizootic in 143
Eimeria adenoeides, poult age *vs.* susceptibility 798
Eimeria meleagrimitis, poult age *vs.* susceptibility 798
Eimeria mitis Tyzzer 1929 life history 674
Eimeria tenella
in chicken, factors influencing 437
ELISA *vs.* 688
purification of sporozoites from sporulated oocysts 235
ELISA
for avian encephalomyelitis virus antigen 209
for *Bordetella avium* 353
for coccidiosis 688
for *Eimeria tenella* 688
for infectious bronchitis virus 451
labeled avidin-biotin, for infectious laryngotracheitis 24
monoclonal-antibody-mediated, for reticuloendotheliosis viruses 32
for *Mycoplasma gallisepticum*, commercial evaluated 262
for reoviruses 678
for reticuloendotheliosis viruses 32
study of breeder vaccination programs 114
ELISIA for mycoplasma antigenic variation 748
Enterobacter in psittacines 79
enzyme-linked immunosorbent assay *see* ELISA
enzyme-linked immunosorbent inhibition assay for *Mycoplasma gallisepticum* 748
erysipelas, live oral vaccine *vs.* 668
Escherichia coli
activated respiratory phagocytes *vs.* 681
adhesin–receptor interactions 74
ascorbic acid *vs.* 407
in ascorbic-acid-treated chickens, stress *vs.* 432
factors influencing severity 793
vs. mineral metabolism 779
oral inoculation *vs.* turkey performance 103
pilus subunits, diversity 822
in psittacine cloacal swabs or feces 46, 79
in raptor feces 53
Escherichia fergusonii in raptor feces 53
Eustrongylides in common egret 143

F

feed
additives *vs.* competitive exclusion and *Salmonella* 324
pelleted, *vs.* ascites in broilers at low altitude 376
flight control, surgical, in peafowl 553
flow cytometry for mycoplasma identification 513
fowl cholera *see also Pasteurella multocida*
economic impact in Georgia 718
epidemiology and financial impact 16
epizootic in wild birds characterized 124
fungi in psittacine feces 46

Fusarium-induced dyschondroplasia
acid phosphatase in chondroclasts 240
bone properties 132
dietary selenium *vs.* 84
immune study 132
Fuscuropoda on dead chicks 567

G

gangrenous dermatitis, *Staphylococcus*-induced 140
genomic fingerprints of mycoplasmas 220
gland of Harder, infectious-bursal-disease-virus-infected, plasma cell count in 624
goiter in cockatiel 169
granulomas, cecal and hepatic, associated with *Heterakis gallinarum* 836
guidelines for authors 173, 379, 597, 860
guinea fowl
acute pulmonary edema in 151
ascites in 151
splenomegaly in 151

H

Haemophilus paragallinarum
sensitivity to antimicrobials 742
serological response to 308
harderian gland, infectious-bursal-disease-virus-infected, plasma cell count in 624
heart, right, failure 246
heat stress in layers affected by *Mycoplasma gallisepticum* 232
hemagglutination-inhibition test
for infectious bronchitis virus, procedures compared 335, 451
for *Mycoplasma gallisepticum* evaluated 262
Mycoplasma gallisepticum strains compared 731
hemangiosarcoma, proventricular, in broiler 148
hematology of turkeys given cyclophosphamide 812
hepatitis, inclusion-body, in day-old turkeys 587
Heterakis gallinarum in chickens with cecal and hepatic granulomas 836
histomorphometry of valgus-varus deformity 704
history of AAAP 175
history of mycoplasmosis 607
hydrophile-lipophile balance in oil-emulsion vaccines 68
hypoplasia, optic nerve 469

I

immunization, passive, *vs. Bordetella avium* adhesion 494
Immunocomb® scores converted to hemagglutination-inhibition titers 517
immunoglobulin A, biotin-labeled 416
immunodepression in chickens due to Marek's disease virus 1
inclusion-body hepatitis in day-old turkeys 587
infectious bronchitis virus
dot-immunobinding assay for 137
ELISA for 451
hemagglutination-inhibition procedures compared 335
Immunocomb® scores converted into hemagglutination-inhibition titers 517
serotyping recent isolates 362
infectious bursal disease virus
and experimental cryptosporidiosis 803
in gland of Harder, plasma cell count 624
growth in Vero cells 298
vs. local and systemic response 632
lysis of chicken lymphocytes 818
neutralization sites defined with monoclonal antibodies 527, 535
non-serotype 1 turkey isolates related 374
serotype 2 apathogenicity in chickens 757
infectious coryza vaccine, inactivated, adjuvant for 831
infectious laryngotracheitis virus, labeled avidin-biotin ELISA for 24
inflammation, acute, and associated leukocyte changes 760
instructions for authors 173, 379, 597, 860
iron metabolism in *Escherichia coli* infection 779

K

Klebsiella in psittacines 79
Kluyvera in raptor feces 53

L

L-929 cells, cytopathology of *Chlamydia psittaci* for 421
Lactobacillus in psittacine feces 46
leiomyosarcoma in budgerigar 163, 166
leukocyte
changes in chickens with acute inflammation 760
counts in *Pasteurella multocida*-inoculated turkeys 204
Levine, P. P., Award 601
liposomes, artificial, for preparing *Mycoplasma gallisepticum* antigens 519
Listeria monocytogenes, reduced resistance during retrovirus-induced immunosuppression 663
lymphocytes, lysis by infectious bursal disease viruses 818

M

mallard, avian influenza viruses from, pathogenicity for turkeys 319
Marek's disease
vs. immunodepression of infected chickens 1
turkey lymphoblastoid cell line, clones of 486
maternal antibody *vs.* avian leukosis virus 89
Micrococcus in psittacine feces 46
mites, uropodid, on dead chicks 567
Moellerella wisconsensis in raptor feces 53
monensin associated with skeletal muscle lesions 583

monoclonal antibodies
for defining infectious bursal disease virus-neutralization sites 527, 535
in ELISA for reticuloendotheliosis viruses 32
vs. Newcastle disease virus and pigeon paramyxovirus, characterized 273
Morganella morganii in raptor feces 53
Mycoplasma fingerprints 220
Mycoplasma gallisepticum
antigens prepared with artificial liposomes 519
assays evaluated 262
identification by flow cytometry 513
specific immunoglobulin A, biotin-conjugated antisera for 416
strain F
vs. layer response to heat 232
vaccine, in post-production-peak leghorns 304
strains compared 731, 748
Mycoplasma synoviae identification by flow cytometry 513
mycoplasmosis history 607

N

necropsy diagnostic summaries 391
nematodiasis in common egret 143
Newcastle disease virus *see also* paramyxovirus
Immunocomb® scores converted to hemagglutination-inhibition titers 517
pigeon isolate, distribution of in chicken organs 544
and pigeon paramyxovirus, monoclonal antibodies *vs.* 273
vaccine *see* vaccine

O

oak poisoning in cassowary 849
ocular changes in turkeys 469
optic nerve hypoplasia in turkeys 469
oxytetracycline *vs. Pasteurella multocida* 478

P

pancreatic necrosis in turkeys 574
paramyxovirus
serotype 1
monoclonal antibodies *vs.* 273
in pigeons 839
serotype 2 in Costa Rica 713
parrot, cholangiocarcinoma in 594
Pasteurella multocida see also fowl cholera
activated respiratory phagocytes *vs. Escherichia coli* 681
capsular serogroup B virulence 121
effect on prostaglandin E and $F_{2\alpha}$ levels in turkeys 204
P-1059 strain pili and capsule 313
resistance to oxytetracycline 478
serotype 3,4 501, 509
in wild mammals and birds, prevalence and virulence for turkeys 9
peafowl flight surgically controlled 553
Percoll density gradients, *Eimeria tenella* sporozoite purification 235
peroxidase-antiperoxidase method for detecting chlamydial infection in pet birds 157
phagocytes, activated respiratory, *vs. Escherichia coli* 681
pheasants, ring-necked, type II avian adenovirus in 548
pigeon paramyxovirus and Newcastle disease virus, monoclonal antibodies *vs.* 273
pigeons, paramyxovirus-1 in 839
pili
vs. Bordetella avium 641
of *Escherichia coli*, subunits 822
of *Pasteurella multocida* expressed 313
role as adhesin 74
pineoblastoma in cockatiel 591
plasma cell count in infectious-bursal-disease-virus-infected gland of Harder 624
poisoning, oak, in cassowary 849
poliomyelomalacia in turkey 574
production, post-peak, *Mycoplasma gallisepticum* F strain vaccine *vs.* egg quality 304
prostaglandin levels in *Pasteurella multocida*-inoculated turkeys 204
Proteus in raptor feces 53
Pseudomonas in psittacines 79
pseudoparasitism by uropodid mites 567
psittacines
bacteria in 46, 79
yeasts in 79

Q

quail
cell line for propagating avian viruses 282
coccidiosis *vs.* reproductive maturation 41

R

raptors, bacteria in 53
reoviruses
compared 678
Cryptosporidium baileyi interaction 381
modified live vaccine safety 461
reproductive maturation in male Japanese quail, effect of coccidiosis on 41
respiratory system, cellular defense of 681
restriction endonuclease analysis for *Mycoplasma gallisepticum* antigenic diversity 731
retrovirus-induced immunosuppression, cause of reduced *Listeria monocytogenes* resistance 663
reticuloendotheliosis virus, ELISA for 32
ribosomal RNA gene probe, *Mycoplasma* 220
right heart failure in broilers, lesions 246
rotaviruses, avian, characterized 195
Rous sarcoma virus, recombinant avian leukosis virus *vs.* 410
Rumsey, Reed, Award 604

S

Salmonella
colonization in chicks treated with native gut microflora and feed additives 324
in raptor feces 53
Salmonella typhimurium attachment to ceca *in vitro* 215
selenium, dietary, *vs.* tibial dyschondroplasia 84
Serratia in raptor feces 53
serum plate egg agglutination test for *Mycoplasma* evaluated 262
skeletal lesions
of male broiler-breeders reared on elevated slats 540
in muscle associated with monensin 583
Special Service Award 599
splenomegaly
and egg drop, signs of big liver and spleen disease 773
in guinea fowl 151
Staphylococcus epidermidis in psittacine feces 46
Staphylococcus-induced gangrenous dermatitis in broilers 140
Streptococcus
in psittacine feces 46
in raptor feces 53
in white pekin duckling feces 570
Streptomyces in psittacine feces 46
stress
environmental, in ascorbic-acid-treated chickens, antibody response 483
environmental, *vs. Escherichia coli* in ascorbic-acid-treated chickens 432
heat, ascorbic acid *vs.* mortality due to 561
heat, response of *Mycoplasma gallisepticum*-infected layers to 232

T

tendon lesions in male broiler-breeders reared on elevated slats 540
tibial dyschondroplasia, *Fusarium*-induced
bone properties 132
vs. chondroclast function 240
dietary selenium *vs.* 84
toxicity, oak, in cassowary 849
tracheal epithelium, *Escherichia coli* attachment to 74

U

Upjohn Achievement Award 603
urolithiasis in single-comb leghorns 563
uropodid mites on dead chicks 567

V

vaccination programs in breeders, ELISA study 114
vaccine
avian influenza
evaluation in turkeys 659
inactivated, hydrophile-lipophile balance optimized 68
erysipelas live oral 668
infectious coryza, inactivated, adjuvants for 831
Mycoplasma gallisepticum F strain, *vs.* egg quality in post-production-peak leghorns 304
Newcastle disease virus
inactivated, hydrophile-lipophile balance optimized 68
viable and inactivated evaluated 342
reovirus, modified live safety 461
valgus-varus deformity, histomorphometry and vitamin D metabolism in 704
Vero cells, infectious bursal disease virus growth in 298
viruses, avian *see also* individual names
propagation in quail fibroblast cell line 282
virus-neutralization test
for infectious bronchitis virus, compared with ELISA 451
for reoviruses 678
vitamin C *see* ascorbic acid
vitamin D metabolism in lame broilers 704

W

waterfowl, post-epizootic survey for duck plague 722
western blot analysis for *Mycoplasma gallisepticum* antigenic variation 748
wild birds
avian cholera epizootic in 124
paramyxovirus-2 in 713
Pasteurella multocida in, virulence for turkeys 9
wild mammals, *Pasteurella multocida* in, virulence for turkeys 9

Y

yeasts in psittacines 79
Yersinia ruckeri in raptor feces 53
Yucaipa-like virus in Costa Rica 713

Z

zinc metabolism in *Escherichia coli* infection 779
